**\*TALK TO PARENTS OF CHILDREN WHO ATTEND THE MOORE TOWNSHIP ELEMENTARY SCHOOL\***

**URGE THEM TO MAKE A COMMENT TO THE FEDERAL ENERGY REGULATORY COMMISSION NOW!**

**BEFORE A FINAL APPROVAL IS GRANTED**

**We have experienced many limitations as attempts were made to alert parents of children who attend Moore Township Elementary School that the pipeline will run approximately 3/10 of a mile from the school.**

Lack of awareness is the biggest obstacle at this time

There are so many parents that are unaware and therefore are unable to express their opposition or make comments during this critical time period before the pipeline is approved and it will then be too late to make a difference.
